

# Origins of human language: continuities and splits with nonhuman primates

*Louis-Jean Boë, Joël Fagot, Pascal Perrier & Jean-Luc Schwartz (eds)*

## Contents

Preface.....	
<i>Caralyn Kemp, Arnaud Rey, Thierry Legou, Louis-Jean Boë, Frédéric Berthommier, Yannick Becker and Joël Fagot</i>	
Vocal Repertoire of Captive Guinea Baboons ( <i>Papio papio</i> ).....	
<i>Louis-Jean Boë, Thomas R. Sawallis, Joël Fagot and Frédéric Berthommier</i>	
What's up with Wahoo? Exploring Baboon Vocalizations with Speech Science Techniques....	
<i>Adriano R. Lameira</i>	
Origins of Human Consonants and Vowels: Articulatory Continuities with Great Apes.....	
<i>Frédéric Berthommier, Louis-Jean Boë, Adrien Meguerditchian, Thomas R. Sawallis and Guillaume Captier</i>	
Comparative Anatomy of the Baboon and Human Vocal Tracts: Renewal of Methods, Data, and Hypotheses.....	
<i>Veena Kumar and Kristina Simonyan</i>	
Evolution of the laryngeal motor cortex for speech production.....	
<i>William D. Hopkins</i>	
Motor and Communicative Correlates of the Inferior Frontal Gyrus (Broca's Area) in Chimpanzees.....	
<i>Camille Coye, Simon Townsend and Alban Lemasson</i>	
From Animal Communication to Linguistics and Back: Insight from Combinatorial Abilities in Monkeys and Birds.....	
<i>Klaus Zuberbühler</i>	
Primate Roots of Speech and Language.....	
<i>Katja Liebal</i>	
What gestures of nonhuman primates can (and cannot) tell us about language evolution.....	
<i>W Tecumseh Fitch</i>	
Dendrophilia and the Evolution of Syntax.....	
<i>Joël Fagot, Raphaëlle Malassis, Tiphaine Medam and Marie Montant</i>	
Comparing Human and Nonhuman Animal Performance on Domain-General Functions: Towards a Multiple Bottleneck Scenario of Language Evolution.....
